ANIMAL RIGHTS

Animal welfare supports the belief that humans have a right to use animals, but also have a responsibility to treat them humanely.

Animal Rights is a philosophical view that animals have rights similar or the same as humans. Animal rights proponents believe that humans do not have the right to use animals at all.

Alberta Farm Animal Care is a LIVESTOCK WELFARE organization. Our vision is to make sure all farm animals in Alberta are respected, well cared for, and experience a high state of welfare.
